DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a 2-1/2 story brick row of six old Federal houses and all are three bays wide, except #321 and #323, which are of two bays and all are three bays in depth. #317 has rear balconies; #319 has a newer three story block and frame extension one bay in depth; #321 has a newer three story block and frame extension 1/2 bay deep; #323 has a newer three story full width extension two bays deep, now covered with aluminum siding; #325 has rear galleries; and #327 has a three story brick "L" shaped wing two bays deep and two bays wide with side galleries. All brickwork is in common bond. Front entrances of the three bay houses are in the center and those on #321-323 are in the end bays. All have newer doors and three pane overlights. Board and batten gates with Victorian stick work grills are on the right side of #317, between #319 and 321 and #323 and 325 and on the right of #327. These guard the steps leading down 5' to 8' to enclosed passageways to the lower level rear yards. Because of the grade, the rear of the front section is 3-1/2 stories in height. All houses retain mostly 6/6 sash windows except #323 with 1/1 sash and #327 with 2/2 sash windows on the front facade. All have wood sills and top moulded original windows are of 6/6 sash in very old thin frames. #327 has rear windows of 1/1 sash and wing windows of 6/6 sash with two new brick header segmental arches. All attics are lighted by 6/6 sash peaked dormer windows on the front and #319 & 327 also have rear dormers. The row building has a moderate slope "A" frame roof with pairs of wide chimneys and three string brick cornices. High fieldstone foundations rise from the lower rear level up to the front pavement.

STATEMENT OF SIGNIFICANCE

This row of old picturesque Federal houses creates the well known South Market Street landmark scene near the southern entrance to the City. Generally, they are in need of restoration for a better appearance and longevity.
